DETAILED ACTION

This office action is a response to the amendment filed on 9/3/2004.

Election/Restrictions

1. Since generic claims 1, 19 and 32 are allowable, claims 5-8, 10-18, 27-30 and newly submitted claims 31-38, directed to the making a magnetic head assembly method, previously restricted from the election of species, are now subject to bring rejoined. Claims 1-38 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 3/23/2004 is hereby withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Upon further consideration with applicant's arguments, examiner agrees with the applicant's counsel that the prior art of record of Ohtomo in view of Lyons fails to disclose the amended claimed invention such as ion beam sputtering a ferromagnetic material layer on the underlying layer and on the side and top surfaces of the shaping layer with the sputtering being directed at an angle to a normal to the flat surface (as per claims 1 and 32) and processes of forming a second photoresist layer with an edge which coincides with an edge site of said pole tip and reactive ion etching the masking layer and the first

photoresist layer to form the masking layer and the first photoresist layer with said side surface for forming an edge of said pole tip (as per claim 19). Okazawa et al. teach a process for applying silicon oxynitride, which is not a ferromagnetic material, by chemical vapor deposition (CVD), which is not the ion beam sputtering. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-38 are allowed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D Kim whose telephone number is 703-308-8356.

The examiner can normally be reached on Tuesday-Friday between 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
